

Port to Renewable Energy Zones construction update

Central-West Orana REZ

Notification | July 2026

Construction commencing notification

EnergyCo is starting early works followed by construction of new pullover bays, as part of the Port to Renewable Energy Zones upgrade. One pullover bay is on the Golden Highway at Sandy Hollow.

We are delivering upgrades along the state road network to enable the delivery of oversize over mass (OSOM) equipment needed to build renewable energy zones across NSW and leave improved roads for the whole community.

In mid-2025, the locations of new pullover bays on the Port to REZ route between Newcastle and Elong Elong in the Central-West were shared.

The new pullover bays will complement existing facilities along the road network and provide motorists with an opportunity to safely pass OSOM vehicles.

BMD has been engaged to construct new pullover bays on the Port to REZ route in 2026 and recently completed early works at these locations.

What are we doing?

Construction of the pullover bay on the Golden Highway at Sandy Hollow, will start from **mid-July 2026** and be completed by **end of September 2026**. Construction work will include:

- Building hardstands, kerb and gutters
- Installing signs and landscaping
- Spray sealing and line marking

Work hours and timing

Standard daytime work hours are **7am and 6pm, Monday to Friday**, and **8am to 1pm, Saturdays**.

To ensure the safety of our crews and motorists, some nighttime work may also occur.

If required, nighttime hours will be from 6pm to 7am, Sunday to Thursday. Any affected residents or businesses will be contacted directly if this is required.

What will this mean for you?

During the works there will be traffic control, temporary lane closures and machinery operating adjacent to, or on the road.

Lane closures will vary as the works progress. Access for road users will be maintained. We will make every effort to minimise noise and vibration impacts by turning off equipment when not in use and monitoring noise.

Please observe speed limits, follow the directions of traffic controllers and signs, plan ahead and allow extra travel time.

For the latest updates, visit www.livetraffic.com or call 132 701. Thank you for your patience during this important work.

Location of the work

Pullover bay on Golden Highway at Sandy Hollow

About EnergyCo

The Energy Corporation of NSW (EnergyCo) is a statutory authority responsible for leading the delivery of Renewable Energy Zones (REZs) as part of the NSW Government's Electricity Infrastructure Roadmap. EnergyCo is working closely with communities, investors and industry to deliver the state's first five REZs.
