

# Port to Renewable Energy Zones construction update

## *Start of construction*

November 2025

EnergyCo is starting construction on the Port to Renewable Energy Zones road upgrade at the intersection of Industrial Drive and Pacific Highway, Mayfield West.

We are delivering upgrades along the state roads network to enable the delivery of oversize over mass (OSOM) equipment needed to build renewable energy zones across NSW and leave improved roads for the whole community.

BMD Constructions will carry out the first stage of work at 19 locations between the Port of Newcastle and Elong Elong, unlocking access to the Central-West Orana Renewable Energy Zone.

### What are we doing?

From late April 2025 until mid-2026, we will be working at multiple locations along the route.

Work will start at the intersection of **Pacific Highway and Industrial Drive, Mayfield West**, on 30 November 2025 and will include:

- Geotechnical investigations and surveying
- Removing the existing kerb and island on Industrial Drive using a jack hammer - over three nights
- Reconstructing the kerb and island which will include the use of concrete trucks
- Relocating and installing new signage
- Relocating a light pole at the north-east corner of the intersection

### Work hours and timing

To reduce the impacts on traffic and ensure the safety of workers and motorists, work will be completed at night.

- **30 November 2025, for seven weeks, Sunday to Thursday, 6pm to 7am**, weather permitting
- Any affected residents will be contacted directly.

### What will this mean for you?

During the works there will be traffic control, temporary lane closures and machinery operating adjacent to, or on the road.

Lane closures will vary as the works progress. Access for road users will be maintained. We will make every effort to minimise noise and vibration impacts by turning off equipment when not in use and monitoring noise.

Please observe speed limits, follow the directions of traffic controllers and signs, plan ahead and allow extra travel time.
