Port to Renewable Energy Zones construction update

Central-West Orana REZ

Notification | June 2026

Night work notification

EnergyCo is continuing construction on the Port to REZ project, at the intersection of Industrial Drive, George Street and Selwyn Street, Mayfield North.

We are delivering upgrades along the state roads network to enable the delivery of oversize over mass (OSOM) equipment needed to build renewable energy zones across NSW and leave improved roads for the whole community.

BMD Constructions will carry out the first stage of work at 19 locations between the Port of Newcastle and Elong Elong, unlocking access to the Central-West Orana Renewable Energy Zone.

What are we doing?

From late April 2025 until mid-2026, we will be working at multiple locations along the route.

Work will continue at the intersection of **Industrial Drive, George Street and Selwyn Street, Mayfield North. The night works will include a total of four night shifts** to asphalt and line mark.

Work hours and timing

To reduce the impacts on traffic and ensure the safety of workers and motorists, work will be completed over a total of **four night shifts** at the **end of June and early July 2026**.

The night shift will be scheduled between **Sunday to Thursday, 6pm to 7am**, weather permitting. Any affected residents will be contacted directly.

What will this mean for you?

During the works there will be traffic control, temporary lane closures and machinery operating adjacent to, or on the road.

Lane closures will vary as the works progress. Access for road users will be maintained. We will make every effort to minimise noise and vibration impacts by turning off equipment when not in use and monitoring noise.

Please observe speed limits, follow the directions of traffic controllers and signs, plan ahead and allow extra travel time.

For the latest updates, visit www.livetraffic.com or call 132 701. Thank you for your patience during this important work.
