# Port to Renewable Energy Zones construction update

## Central-West Orana REZ

Notification | August 2026

## Construction commencing notification

EnergyCo is starting early works followed by construction of new pullover bays, as part of the Port to Renewable Energy Zones upgrade. One pullover bay is at Uarbry, on the Golden Highway near Tongy Lane.

We are delivering upgrades along the state road network to enable the delivery of oversize over mass (OSOM) equipment needed to build renewable energy zones across NSW and leave improved roads for the whole community.

BMD has been engaged to construct 5 new pullover bays on the Port to REZ route in 2026 and recently completed early works at these locations.

The new pullover bays will complement existing facilities along the road network and provide motorists with an opportunity to safely pass OSOM vehicles.

## What are we doing?

Construction of the pullover bay is at Uarbry, on the Golden Highway near Tongy Lane, will start from **mid-August 2026** and be completed by **end November 2026.** Construction work will include:

- Relocating a power pole to the opposite side of the Golden Highway
- Building a vegetated drain, hardstands, kerb and gutters
- Installing signs and landscaping
- Spray sealing and line marking

## Work hours and timing

**Work hours will be from 7am to 6pm.** Work will take place for **10-days on, four days off**, to better manage worker fatigue. Each fortnight work will start on a Tuesday and finish every second Thursday. Work will occur every second Saturday and Sunday during the 10 day roster.

No construction activity will happen every second Friday through to Monday.

To ensure the safety of our crews and motorists, some nighttime work may also occur. If required, nighttime hours will be from **6pm to 7am**.

## What will this mean for you?

During the works there will be traffic control, temporary lane closures and machinery operating adjacent to, or on the road.

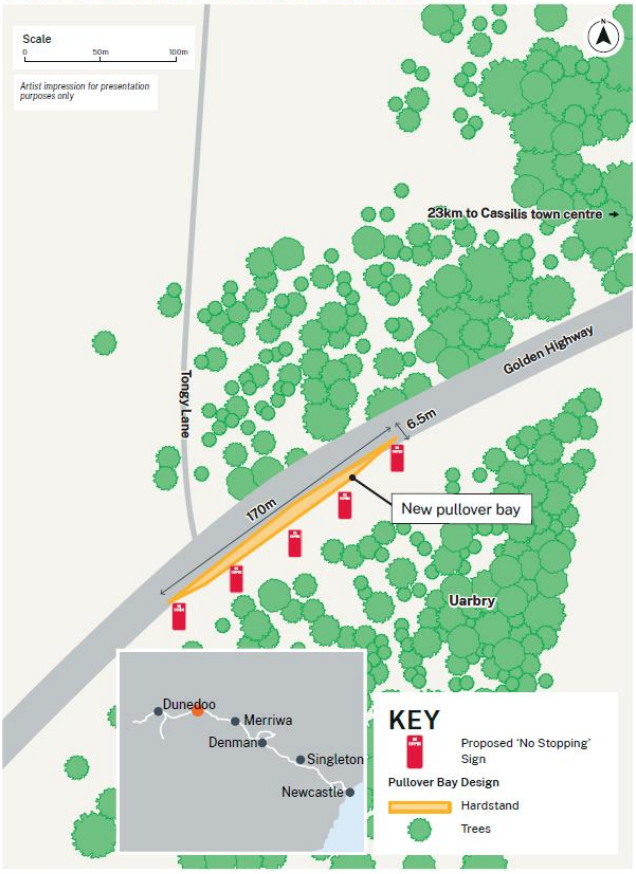
Lane closures will vary as the works progress. Access for road users will be maintained. We will make every effort to minimise noise and vibration impacts by turning off equipment when not in use and monitoring noise.

Please observe speed limits, follow the directions of traffic controllers and signs, plan ahead and allow extra travel time.

For the latest updates, visit www.livetraffic.com or call 132 701. Thank you for your patience during this important work.

## Location of the work

Pullover bay on Golden Highway at Uarbry, near Tongy Lane



## About EnergyCo

The Energy Corporation of NSW (EnergyCo) is a statutory authority responsible for leading the delivery of Renewable Energy Zones (REZs) as part of the NSW Government's Electricity Infrastructure Roadmap. EnergyCo is working closely with communities, investors and industry to deliver the state's first five REZs.
