Port to Renewable Energy Zones construction update

Central-West Orana REZ

Notification | August 2026

Night work notification

EnergyCo is continuing construction on the Port to REZ project. As part of this work, night work is required at the intersection of Industrial Drive, Selwyn Street, and George Street, Mayfield North.

We are delivering upgrades along the state roads network to enable the delivery of oversize over mass (OSOM) equipment needed to build renewable energy zones across NSW and leave improved roads for the whole community.

BMD Constructions will carry out the first stage of work at 19 locations between the Port of Newcastle and Elong Elong, unlocking access to the Central-West Orana Renewable Energy Zone (REZ).

What are we doing?

We will be working at the intersection of **Industrial Drive/Selwyn Street/George Street, Mayfield North**, for **one** night shift this coming week. The night work include:

- line marking
- concreting
- traffic signage removal

Work hours and timing

To reduce the impacts on traffic and ensure the safety of workers and motorists, work will be completed over a total of **one night shift in August 2026**. The night shift will be scheduled between **Sunday to Thursday, 6pm to 7am**, weather permitting. Any affected residents will be contacted directly.

What will this mean for you?

During the works there will be traffic control, temporary lane closures and machinery operating adjacent to, or on the road.

Lane closures will vary as the works progress. Access for road users will be maintained. We will make every effort to minimise noise and vibration impacts by turning off equipment when not in use and monitoring noise.

Please observe speed limits, follow the directions of traffic controllers and signs, plan ahead and allow extra travel time.

For the latest updates, visit www.livetraffic.com or call 132 701. Thank you for your patience during this important work.

Location of the work

Selwyn Street/George Street/Industrial Drive, Mayfield North

About EnergyCo

The Energy Corporation of NSW (EnergyCo) is a statutory authority responsible for leading the delivery of Renewable Energy Zones (REZs) as part of the NSW Government's Electricity Infrastructure Roadmap. EnergyCo is working closely with communities, investors and industry to deliver the state's first five REZs.
